Real-Time Regulatory Compliance Monitoring Dashboard

AI Functional Foods → ML-Based Consumer Health Claim Substantiation Tools

Contact +91 89776 24748 for joining process

Visit ASCEND Portal for more details →

A machine learning-driven monitoring service that tracks changing regulatory standards across global markets for functional food health claims in real-time. It alerts manufacturers to compliance gaps and automatically recommends claim reformulations, protecting brand reputation and avoiding costly regulatory violations.

Offline: Hands-on program carried out in person at a NTHRYS Biotech Labs branch, with wet-lab access and on-site mentorship.

Online: Conducted remotely using in-silico (computer-based) methodologies, with digital resources and guided support.

Academic: Curriculum-aligned track focused on fundamentals and structured learning, suited to coursework and academic credit.

Professional: Career-oriented track emphasising applied, job-ready skills and professional practice.

Industrial: Industry-focused track centred on real-world processes, industrial techniques and production-relevant workflows.
