

NTHRYS WORKSHOPS

Immunopathology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Immunopathology in Disease Research

Overview of the importance of immunopathology in disease research.
Hands-on session on studying immune responses in diseases.
Case studies on the impact of immunopathology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Immunopathology in Cancer Research

Exploring the role of immunopathology in cancer research.
Workshop on using immunopathology to study tumor microenvironments.
Case studies on the applications of immunopathology in cancer therapy.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Infectious Diseases

Hands-on session on the immune response to infectious diseases.
Exploring techniques for studying pathogen-host interactions.
Practical applications of immunopathology in developing treatments for infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Immunopathology

Workshop on translating immunopathological research into clinical practice.
Practical techniques for using immunopathology data in clinical settings.
Case studies on the impact of immunopathology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
