

NTHRYS WORKSHOPS

Immuno Technology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Immuno Technology in Disease Research

Overview of the importance of immuno technology in disease research.
Hands-on session on studying immune responses in diseases.
Case studies on the impact of immuno technology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Immuno Oncology

Exploring the role of immuno technology in cancer research.
Workshop on using immunotherapy to treat cancer.
Case studies on the applications of immuno technology in cancer therapy.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Immuno Technology in Infectious Diseases

Hands-on session on the immune response to infectious diseases.
Exploring techniques for studying pathogen-host interactions.
Practical applications of immuno technology in developing treatments for infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Immuno Technology

Workshop on translating immuno technology research into clinical practice.
Practical techniques for using immuno data in clinical settings.
Case studies on the impact of immuno technology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
