

NTHRYS WORKSHOPS

Introduction To Immuno Technology

8:45 AM - 10:15 AM: Session 1: Basics of Immuno Technology

Overview of immuno technology principles and applications.
Hands-on session on immunological assays and techniques.
Introduction to the importance of immuno technology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Immunoassays and Diagnostics

Interactive session on various immunoassays used in diagnostics.
Workshop on ELISA, flow cytometry, and other immunological techniques.
Practical demonstration of diagnostic applications.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Vaccine Development

Exploring techniques for developing vaccines.

Hands-on training on using immuno technology for vaccine research.
Case studies on the application of immuno technology in vaccine development.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Therapeutic Antibodies

Workshop on the production and use of therapeutic antibodies.
Practical techniques for developing monoclonal and polyclonal antibodies.
Case studies on the role of therapeutic antibodies in treatment.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
