

## NTHRYS WORKSHOPS

# Interferomics In Biomedical Research

### 8:45 AM - 10:15 AM: Session 1: Role of Interferomics in Disease Research

Overview of the importance of interferomics in disease research.  
Hands-on session on studying disease-related interferon responses.  
Case studies on the impact of interferomics in biomedical research.

### 10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

### 10:30 AM - 12:00 PM: Session 2: Interferomics in Cancer Research

Exploring the role of interferomics in cancer research.  
Workshop on using interferon studies to identify cancer biomarkers and therapeutic targets.  
Case studies on the applications of interferomics in cancer therapy.

### 12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

### 1:00 PM - 2:30 PM: Session 3: Interferomics in Virology

Hands-on session on the use of interferomics in virology.

Exploring techniques for studying viral infections and immune responses.  
Practical applications of interferomics in virological research.

### **2:30 PM - 2:45 PM: Short Break**

Time for a stretch and informal discussions.

### **2:45 PM - 4:15 PM: Session 4: Clinical Applications of Interferomics**

Workshop on translating interferomics research into clinical practice.  
Practical techniques for using interferon data in clinical settings.  
Case studies on the impact of interferomics on medical treatments.

### **4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break**

Last networking opportunity with snacks.

### **4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption**

Group discussions on implementing new techniques learned today.  
Dialogue on overcoming challenges in adopting new technologies in similar sectors.  
Feedback session and closing remarks.

**Certificate Issue**

### **5:30 PM: Workshop Concludes**
