

NTHRYS WORKSHOPS

Limnology In Environmental Research

8:45 AM - 10:15 AM: Session 1: Role of Limnology in Environmental Research

Overview of the importance of limnology in environmental research.
Hands-on session on studying the impact of human activities on freshwater ecosystems.
Case studies on the impact of limnology in environmental science.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Limnology in Climate Change Studies

Exploring the role of limnology in climate change research.
Workshop on studying the effects of climate change on aquatic ecosystems.
Case studies on the applications of limnology in climate change studies.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Limnology in Pollution Control

Hands-on session on the use of limnology in pollution control.
Exploring techniques for monitoring and mitigating pollution in freshwater bodies.
Practical applications of limnology in pollution control.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Limnology in Conservation Biology

Workshop on the use of limnology in conservation biology.
Practical techniques for conserving freshwater biodiversity.
Case studies on the role of limnology in conservation efforts.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
