

NTHRYS WORKSHOPS

Medical Biology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Medical Biology in Disease Research

Overview of the importance of medical biology in disease research.
Hands-on session on studying disease mechanisms using biological techniques.
Case studies on the impact of medical biology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Medical Biology in Cancer Research

Exploring the role of medical biology in cancer research.
Workshop on using biological techniques to study cancer.
Case studies on the applications of medical biology in cancer therapy.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Medical Biology in Infectious Diseases

Hands-on session on the use of medical biology in studying infectious diseases.

Exploring techniques for studying pathogen-host interactions.
Practical applications of medical biology in developing treatments for infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Medical Biology

Workshop on translating medical biology research into clinical practice.
Practical techniques for using biological data in clinical settings.
Case studies on the impact of medical biology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
