

NTHRYS WORKSHOPS

Medical Biotechnology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Medical Biotechnology in Disease Research

Overview of the importance of medical biotechnology in disease research.
Hands-on session on studying disease mechanisms using biotechnological techniques.
Case studies on the impact of medical biotechnology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Medical Biotechnology in Cancer Research

Exploring the role of medical biotechnology in cancer research.
Workshop on using biotechnological techniques to study cancer.
Case studies on the applications of medical biotechnology in cancer therapy.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Medical Biotechnology in Infectious Diseases

Hands-on session on the use of medical biotechnology in studying infectious diseases.
Exploring techniques for developing vaccines and antiviral therapies.
Practical applications of medical biotechnology in developing treatments for infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Medical Biotechnology

Workshop on translating medical biotechnology research into clinical practice.
Practical techniques for using biotechnological data in clinical settings.
Case studies on the impact of medical biotechnology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
