

NTHRYS WORKSHOPS

Molecular Cancer Research In Biomedical Studies

8:45 AM - 10:15 AM: Session 1: Role of Molecular Cancer Research in Biomedical Studies

Overview of the importance of molecular cancer research in biomedical studies.
Hands-on session on studying disease mechanisms using molecular techniques.
Case studies on the impact of molecular cancer research in biomedical studies.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Cancer Genomics in Biomedical Research

Exploring the role of cancer genomics in biomedical research.
Workshop on using genomics to study cancer biology and treatment.
Case studies on the applications of cancer genomics in biomedical research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Molecular Diagnostics in Cancer

Hands-on session on molecular diagnostics in cancer research.
Exploring techniques for developing and applying diagnostic tests.
Practical applications of molecular diagnostics in personalized cancer treatment.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Translational Cancer Research

Workshop on translating cancer research into clinical practice.
Practical techniques for bridging the gap between research and treatment.
Case studies on the impact of translational research in improving cancer therapy.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
