

NTHRYS WORKSHOPS

Neuromicrobiology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Neuromicrobiology in Disease Research

Overview of the importance of neuromicrobiology in disease research.
Hands-on session on studying neuroinfections and their impact on neurological diseases.
Case studies on the impact of neuromicrobiology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Neuromicrobiology in Neurodegenerative Diseases

Exploring the role of neuromicrobiology in neurodegenerative diseases.
Workshop on using neuromicrobiological techniques to study and treat conditions like Alzheimer's and Parkinson's.
Case studies on the applications of neuromicrobiology in neurodegenerative disease research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Neuromicrobiology in Autoimmune Neurological Disorders

Hands-on session on neuromicrobiology applications in autoimmune neurological disorders.
Exploring techniques for analyzing and treating autoimmune neuroinfections.
Practical applications of neuromicrobiology in managing autoimmune neurological disorders.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Neuromicrobiology

Workshop on translating neuromicrobiology research into clinical practice.
Practical techniques for using neuromicrobiology data in clinical settings.
Case studies on the impact of neuromicrobiology on medical treatments.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
