

NTHRYS WORKSHOPS

Oral Microbiology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Oral Microbiology in Disease Research

Overview of the importance of oral microbiology in disease research.
Hands-on session on studying the impact of oral microbiota on systemic diseases.
Case studies on the impact of oral microbiology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Oral Microbiology in Cardiovascular Diseases

Exploring the role of oral microbiology in cardiovascular diseases.
Workshop on using oral microbiology to study and manage conditions like endocarditis and atherosclerosis.
Case studies on the applications of oral microbiology in cardiovascular disease research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Oral Microbiology in Diabetes Research

Hands-on session on the use of oral microbiology in diabetes research.
Exploring techniques for identifying oral health risk factors for diabetes.
Practical applications of oral microbiology in managing diabetes.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Oral Microbiology

Workshop on translating oral microbiology research into clinical practice.
Practical techniques for using oral microbiology data in clinical settings.
Case studies on the impact of oral microbiology on patient care.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
