

NTHRYS WORKSHOPS

Pathway Interactomics In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Pathway Interactomics in Disease Research

Overview of the importance of pathway interactomics in disease research.
Hands-on session on studying disease mechanisms using pathway interactomics techniques.
Case studies on the impact of pathway interactomics in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Pathway Interactomics in Cancer Research

Exploring the role of pathway interactomics in cancer research.
Workshop on using pathway interactomics to study and identify cancer pathways.
Case studies on the applications of pathway interactomics in cancer research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Pathway Interactomics in Neurological Disorders

Hands-on session on the use of pathway interactomics in studying neurological disorders.
Exploring techniques for identifying and analyzing pathways involved in neurological diseases.
Practical applications of pathway interactomics in managing neurological disorders.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Pathway Interactomics

Workshop on translating pathway interactomics research into clinical practice.
Practical techniques for using pathway interactomics data in clinical settings.
Case studies on the impact of pathway interactomics on patient care.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
