

NTHRYS WORKSHOPS

Pharmaceutical Biotechnology In Biomedical Research

8:45 AM - 10:15 AM: Session 1: Role of Pharmaceutical Biotechnology in Disease Research

Overview of the importance of pharmaceutical biotechnology in disease research.
Hands-on session on studying disease mechanisms using biotechnological techniques.
Case studies on the impact of pharmaceutical biotechnology in biomedical research.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Pharmaceutical Biotechnology in Oncology

Exploring the role of pharmaceutical biotechnology in oncology.
Workshop on using biotechnology to develop cancer therapies.
Case studies on the applications of pharmaceutical biotechnology in cancer research.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Pharmaceutical Biotechnology in Infectious Diseases

Hands-on session on the use of pharmaceutical biotechnology in studying infectious diseases.
Exploring techniques for developing vaccines and antiviral drugs.
Practical applications of pharmaceutical biotechnology in managing infectious diseases.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Clinical Applications of Pharmaceutical Biotechnology

Workshop on translating pharmaceutical biotechnology research into clinical practice.
Practical techniques for using biotechnological data in clinical settings.
Case studies on the impact of pharmaceutical biotechnology on patient care.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
