

PondSanctus – Clear Water, Zero Sludge, Naturally!

Rs 4400

**104 Ampoules / Year / 1000 sq ft
pond**

+91-8977624748

PondSanctus, a powerful probiotic formula, is now available for just Rs 4400/- for 104 ampoules, providing a full-year treatment for a 1000 SQ ft pond (increase quantity proportionally for larger ponds). Designed to clear murky water, break down sludge, and restore ecological balance, it is safe for fish, plants, and aquaculture. This natural solution effectively eliminates waste buildup, enhances clarity, and maintains a healthy pond. Enjoy long-lasting results with a hassle-free, eco-friendly treatment!

PondSanctus – Complete 1-Year Probiotic Treatment for Ponds

PondSanctus is a powerful probiotic solution designed to keep your pond water crystal clear while effectively breaking down sludge. This package contains **104 ampoules**, carefully measured to provide a **full 52-week treatment** for your pond.

Package Coverage

This package is calculated for a pond up to:

- **1,000 square feet (0.023 acres)** in surface area

- **5 feet deep** water column

If your pond is larger, simply **multiply the product requirement** accordingly.

How to Apply

For best results, follow this easy weekly application:

- **Use 2 ampoules per week** – no mixing, just pour directly into the pond.
- The probiotics immediately start working, breaking down organic sludge and improving water clarity.
- With consistent use, you'll notice a **cleaner pond, reduced sludge, and healthier aquatic life**.

Adjusting for Larger Ponds

If your pond is **twice the size** (2,000 square feet), use **4 ampoules per week**. For **three times the size** (3,000 square feet), use **6 ampoules per week**, and so on.

Why Choose PondSanctus?

- **Eco-friendly** – safe for fish, plants, and all aquatic life.
- **No chemicals** – works naturally to restore pond health.
- **Long-lasting results** – prevents future sludge buildup.
- **Hassle-free** – simple weekly application.

With **PondSanctus**, maintaining a clean and balanced pond is easy! Just follow the weekly dosing, and let nature do the rest.
