Techniques: Based upon the selected field techniques will vary. Please contact on +91-7993084748 for techniques/protocols covered and other details.

Modes Available: Online and Offline.

Offline Project Location: [NTHRYS Biotech Labs Location](#)

Offline Timetable: 10.30 AM to 4.30 PM, Tuesday to Friday. Saturday will be allocated for report works on online mode.

Online Timetable: Task-based timetable, mentors will synchronize with students based on the task at hand. There is no specific timetable as many international students opt for this mode. Sunday and Monday are holidays for online mode candidates.

What do candidates get from NTHRYS from this project?

1. A project completion certificate (For durations 6 months and above NTHRYS will provide an experience certificate) upon successful completion of the project.
2. Complete Project / Dissertation Report Assistance.
3. Complete hands-on exposure to the research methodology allocated to the candidates.
4. Exposure to PhD or research standard literature survey process.
5. Exposure to SCOPUS / SCI standard draft writing skills if the candidates are personally interested to get exposed to.
6. A recommendation letter to those candidates who are seeking abroad education.
7. A job reference letter.
8. Publication co-authorship if the candidates show exceptional commitment.
9. Last but not least - Career Guidance from Balaji S Rao. Once they are NTHRYS students, they will be our students for a lifetime.

Sponsorship: NTHRYS Founder, MD, and Research Head, Balaji S. Rao, has announced the sponsorship of all student projects starting from July 21, 2024. Consequently, all fee structures have been reduced by over 80%. Additionally, he announces free projects and funded projects (stipend-based) every year in the first week of July. For updates, please follow the NTHRYS WhatsApp channel: [NBL WhatsApp Channel](#)

A Message from [Balaji S Rao](#): "From 2003 to 2020, I have been continually supported by the academic community and students, enabling me to offer various educational services under NTHRYS Biotech Labs. The financial support generated from these services allowed me to invest in research and development, culminating in the launch of several products through NTHRYS OPC PVT LTD by January 2020. By 2024, my second company, NOPC, reached a point of self-sustainability and began funding my research initiatives at NTHRYS Biotech Labs. As a result, I am delighted to give back to the academic community and students. I have started by significantly reducing project fees by 80% and offering free opportunities once a year in July. If everything goes as planned, NOPC will not only provide free projects throughout the year but also support stipends for students in the coming years."

Application Process:

Step 1: Choose the desired duration and pay the fee via PhonePe or Google Pay on +91-9849854748.

Step 2: Send the fee payment screenshot via WhatsApp to +91-7993084748.

Step 3: Our Academic Services department will forward a link to submit your details.

Step 4: After submission of your details, confirm the same to our academic services department via WhatsApp on +91-7993084748.

Step 5: Our Academic Services department will confirm your application and forward you a Project Confirmation document. You can choose your joining date and report to us accordingly.

At any point in time, please communicate via WhatsApp on +91-7993084748 for complete guidance, alternatively, you can communicate with NBL central support number +91-9014935156 only if you could not get a response from the Academic Services department.

We are always here to help.
