

NTHRYS WORKSHOPS

Weed Biotechnology In Agriculture

8:45 AM - 10:15 AM: Session 1: Weed Control in Crop Production

Introduction to weed control strategies in crop production.
Case studies on successful weed management projects.
Practical session on designing and implementing weed control protocols.

10:15 AM - 10:30 AM: Coffee / Tea / Snacks Break

Networking and refreshments.

10:30 AM - 12:00 PM: Session 2: Herbicide Development

Techniques for developing herbicides.
Case studies on herbicide research.
Practical session on creating and testing herbicides.

12:00 PM - 1:00 PM: Lunch Break

Catered lunch and networking opportunity.

1:00 PM - 2:30 PM: Session 3: Weed Control for Emerging Threats

Using weed biotechnology to combat emerging weed threats.

Case studies on research for new weed species.
Practical session on developing solutions for emerging weed threats.

2:30 PM - 2:45 PM: Short Break

Time for a stretch and informal discussions.

2:45 PM - 4:15 PM: Session 4: Future Challenges in Weed Management

Discussion on future challenges and opportunities in weed biotechnology for agriculture.
Strategies for addressing these challenges.
Networking session for collaborative solutions.

4:15 PM - 4:30 PM: Coffee / Tea / Snacks Break

Last networking opportunity with snacks.

4:30 PM - 5:30 PM: Closing Session: Implementing Changes and Technology Adoption

Group discussions on implementing new techniques learned today.
Dialogue on overcoming challenges in adopting new technologies in similar sectors.
Feedback session and closing remarks.

Certificate Issue

5:30 PM: Workshop Concludes
